The Yearbook Staff Proudly Presents, The 1994 NCSD Clock Tower.

This years theme is, "PAH! Just Did It!"

As editor of The 1994 Clock Tower, I have observed all of my fellow yearbook staff putting a lot of effort and time into this book.

Many long hours: weekends, class and on into late night and early hours of the morning have been spent on this production. It is my hope to have left you with a lasting impression.

The reason for our theme, "PAH! Just Did It!" has to do with our seniors. We all are a good group and we have stuck together for 4 years. We have always talked about the moment when we would graduate. Our theme means we finally are graduating.

Special thanks goes to our yearbook advisor, Wayne Whaley, for his time and assistance.

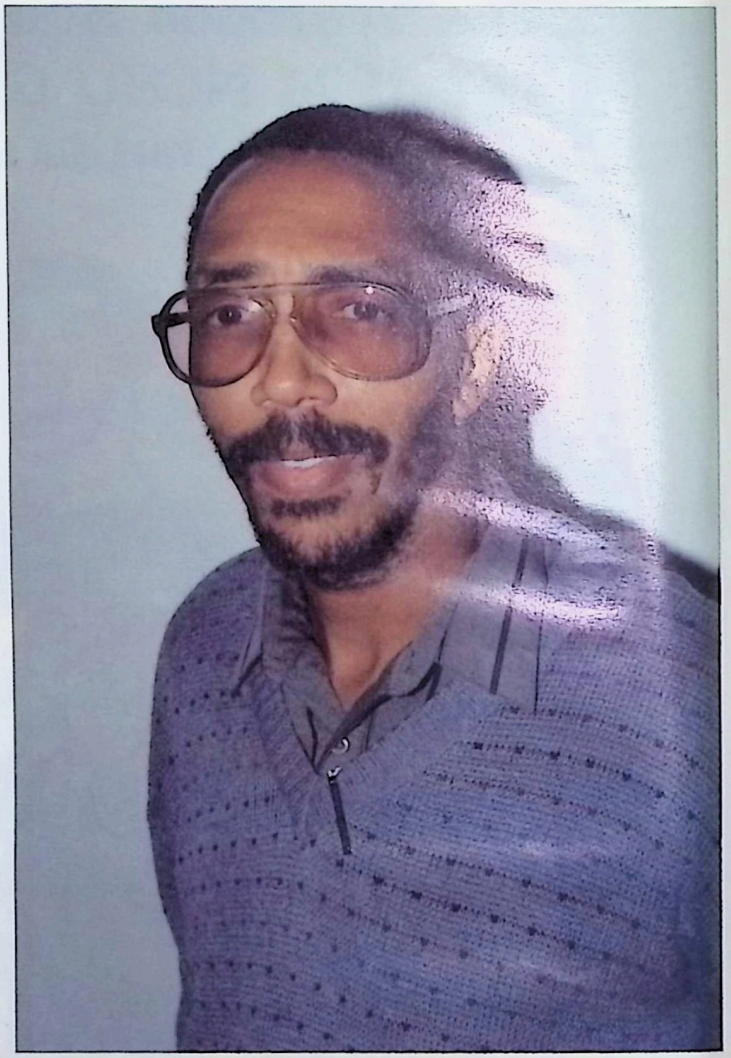
Angie Redar, *editor*

Dedication

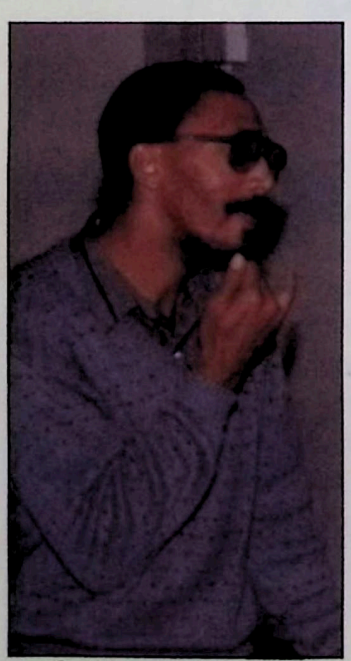
Mr. Louis Robinson has worked at N.C.S.D. for many years as a dorm counselor. He is a former N.C.S.D. student, member of the Booster Club, minister of the Deaf Christian Center in Morganton, and our senior class sponsor.

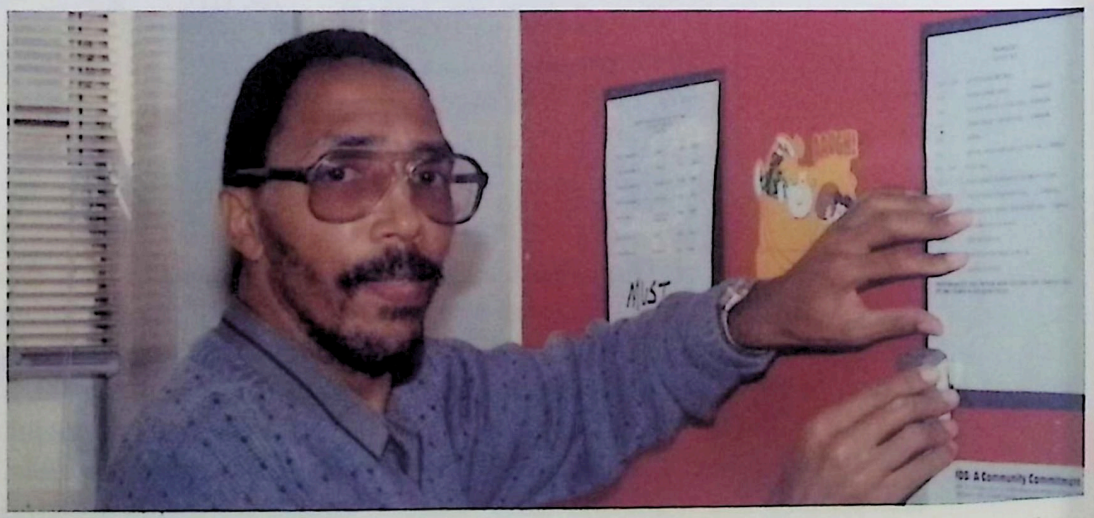
Mr. Robinson has done more than his job because he has always shown a positive attitude toward students. Through his encouragement and influence, he is an inspiration and a tremendous help to many of us. He is an excellent role model who has taught us right from wrong. He expects the best from us and for us to be successful in school and in the future.

We, the Senior Class, would like to show our respect and appreciation by dedicating the 1994 Clock Tower to Mr. Louis Robinson.



Louis Robinson, our 1994 yearbook dedicatee.





To show he cares, Louis Robinson prepares a bulletin board for his dorm students.

NCSD High School Interim Principal, Nelson Abernathy

To: The Senior Class of 1994

The journey and quest for a good education has been long and difficult. We praise each of you for the many good qualities you have developed.

First, you have persevered. You set a goal to graduate from high school and you never gave up; now that dream is coming true. You have learned how to make friends in new situations and how to get along well with other people.

You have learned friendliness is important. Your many friends will continue to be a source of joy through the coming years. Also, you have learned how to make friends in new situations and how to get along well with other people.

You have learned that your education is vital to your success in life. You know how to learn and we encourage you to continue to study and learn each day and your life will be better and richer.

You each have a positive attitude. NCSD is a good school and you have done much through the years to make our school great. In return, we wish for each of you, happiness and success throughout your life. Memories of your days at NCSD will give you great inspiration and be a source of comfort through the coming years. — *Nelson Abernathy*

Editors Note: *The yearbook staff would like to welcome Mr. Marty Blakely as our new High School principal and to thank Mr. Abernathy for all his hard work.*

1993 Homecoming Court

A Word from the Queen, Ann Maria Miller — It's my honor to be named the 1993 Homecoming Queen. I was very shocked when they announced my name. My legs begain to shake because I was really nervous. I feel honored and proud to be this years Homecoming Queen. It's my blessing to thank everyone that was there. I enjoyed having my picture taken many times and the many people I got to meet.

I will never forget all the good memories of being on the Homecoming court. I'm not use to having alot of people looking at me on the football field and I know it showed. But, I enjoyed my experiences as becoming the 1993 Homecoming Queen.

CHEERLEADERS, Just Did It!

Winning the Mason-Dixon Cheerleading competition, TWO YEARS IN A ROW!

Wow! I was so thrilled when they announced that our girls won the championship in the Mason-Dixon cheerleading Com-petition. They did t again! They de-served it! They worked so hard and also were so determined to win! I am very proud of our NCSD cheerleaders. I want to thank you, the girls, for making one of my memories the most wonderful thing that has happened at our school. Lets keep the ball rolling and not let NCSD fade away.

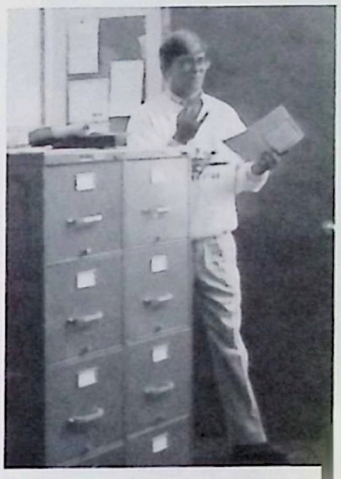
Interview with Marty Blakely

High School principal By Stacey Butner

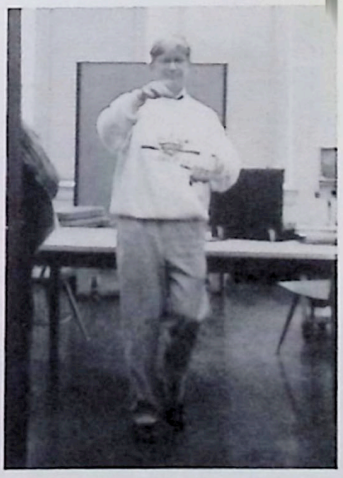
Q How do you feel about NCSD?

A. NCSD has a long history that many dedicated educators fulfilled what the school's dreams were... Now I am a part of this school as my pride in it still exists. FIrst of all I think NCSD faculty has confidence in me since I am a newly hired H.S. Principal. Also, I that administrators, teachers, educational staff, and students begin to understand that all skillful people will do collaborative work in order to make some positive progesses.



Q Now you've been here for 3 weeks what the positive and negative things you see about NCSD?

A. The term negative problem is not the appropriate word to be used in my point of view because the appropriate word is "good problem" that calls our immediate attention and try to dissolve those problems with all our collabortive work. They will lead to be "good solutions." I do appreciate what our retired principal, Mr. Nelson Abethany did his untiring effort to better our program before I took the place... Also, Mrs. Jackie Jones and Mrs. Marilyn Lingerfelt did an "orientation" work with me for first several weeks. It is kind of TQM that fosters our educational atmosphere healthy. One of my strong goals is to build an optimum learning environment where students feel normal, happy, and healthy in a safe and orderly manner.



Q How is life different in Kansas than here in N.C.?

A. 1. SIgn Language Communications are incredibly used almost everywhere in Olathe, Kansas while we have a very few ones here.
2. Winter in Kansas is longer than here. Wind less humid in Kansas is not like our humid wind here.
3. Flat in Kansas are not same in N.C. because of our mountains.
